

## TIPS for HOME SAFETY

# Be House Smart - Play Your Part

### Security doors –

A security screen door at all points of entry to the house provide an additional level of security. One-way mesh allows you to see out without the visitor seeing in. All doors should be keyed alike.

### Front Door –

Your front door should be of sturdy construction and preferably have a solid core. It should be properly affixed to the door -frame for maximum security.

### Intercom –

An intercom system can allow you to screen visitors. It can provide an added level of security for your home.

### Door Viewer –

Your front door should have a door viewer (or peep hole) so that you can see who is outside without opening the door.

### Deadlocks –

Consider installing a deadlock for added security. It should be fitted with a safety release to allow quick exit from the house.
